<b>Duration of the project</b>	<b>To be defined in cooperation with potential partners</b>
--------------------------------	---

**PROJECT DESCRIPTION:****Objectives**

Fill in the missing gaps for academic and training programs in the health sciences

Develop and deliver professional standards for regulated professions in accordance with relevant EU standards in the area of health

Stimulate exchange and sharing of knowledge among our staff and students through mobility exchange activities in the following areas, but not limited to:

- a. Nursing
- b. Professional Pedagogy in Nursing
- c. Occupational Therapy
- d. Physiotherapy
- e. Speech Therapy
- f. Laboratory Technician
- g. Health Psychology

Provide patients with missing, innovative and more effective approaches of their evaluation, assessment and treatment

**Activities**

- Jointly designing and delivering undergraduate and graduate programs in above mentioned health sciences
- Offer exchange activities for the (academic) staff and students
- Jointly design and deliver training modules for professionals of health sciences related to those mentioned above
  - Provide relevant training to the staff on multidisciplinary patients evaluation/assessment
- Investing in relevant equipment needed to offer respective health care services and provide training on how to functionalize/utilize them
- Design and deliver a continual system for monitoring the patients

**Results**

- New academic (under) graduate programs designed and delivered
- Health profession standards designed and accredited at the national as well as international level
- Trainers of health profession standards certified by internationally and nationally recognized bodies
- Multidisciplinary Health Centre established and functional, integrated into networks of similar health centres within the European Union and beyond

## Partner Search Form

- New approaches of patients' evaluation, assessment and treatment implemented at the Multidisciplinary Health Centre
- More opportunities for life-long learning in the area of health sciences
- More skilled students and professionals of health sciences

### We are searching for:

<b>Types of institutions</b>	Higher Education Institutions, health centres, and other relevant organisations, focused on the health sciences mentioned above, especially.
<b>Country/Region</b>	Along with potential partners from the European Union member countries, we are highly interested to collaborate partners from other regions, depending on the mutual interests we may have.
<b>Institutions' profiles</b>	<p>A typical partner would be a university and/or multidisciplinary health from EU and EU neighbouring countries offering undergraduate or graduate academic programs in one of the health sciences mentioned above.</p> <p>Such partners are expected to have certain level of expertise and willingness to share it with us while designing and delivering respective projects, but at the same time have an interest on providing their staff and students opportunities for professional international development in relatively different operating contexts.</p> <p>Other dimensions of the profile of a typical partner relate to their commitment and capability to introduce and share innovative ideas within the education and health system, updating/transforming them into more effective in responding to the prevailing needs/demands. Besides, such partners would be highly committed to the social reform and development in general, especially in communities that are less developed.</p>
<b>Other relevant information</b>	<p>Heimerer College is a German-Kosovar Institution of Higher Education, known for its high quality of education services, research and networking in Kosovo and region.</p> <p>We have experienced staff on project development and implementation, involving multiple domestic and international partners, which are mainly funded by international donors i.e. European Commission (Tempus, Erasmus and other Programmes). We are highly committed and flexible to collaborate with various partner organizations.</p>
