Search for Faculty and Student mobility Erasmus +

Dear Erasmus friends,

Hope this finds you well, wishing you blessed time of feasts from BETHLEHEM.

As mobility becomes increasingly interdisciplinary and networked, faculty and students from our university have great interest to spend time at another university in order to complete or enhance their knowledge and learn about European culture and educational system.

We do encourage our colleagues and student for mobility within the Erasmus + program in order to foster the exchange of ideas, specialized training, research collaboration, and interdisciplinary.

On behalf of my university I would like to express high interest to send faculties and students in your university through Erasmus + as part of interest to start a collaboration and find ways to partner in various ways.

Please, do not hesitate to contact me as the legal representative for Erasmus + in my university, and I will make sure to provide any further information o documents needed.

Sincerely,

Dr. Sami Basha

Search for Faculty and Student mobility Erasmus +

Objectives

Since its establishment, Palestine Ahliya University College (PAUC) has been always a pioneer institute in higher education offering academic services towards Palestinians and other nationalities with qualifications prescribed by the college. PAUC works hard to secure quality education for students through qualified academicians worldwide. It also works towards securing quality education requirements with a highly qualified administration.

Our vision is to achieve entrepreneurship and excellence on the national, regional and international levels, in the fields of higher education, scientific research, dissemination of knowledge, and community partnership.

In the last years we have developed our own philosophy in higher education where students are the main focus while community based learning in partnership with the local community is our main priority. The following topics are of our interest and we own expertise and competences in being a strong implementers with high qualified staff:

- 1) Internationalization as mean of global and cultural understanding
- 2) Educational networking on national, regional and international levels.
- 3) Advancing teaching and learning in a context of conflict
- 4) Initiating discussion and debate on teaching and learning in higher education to face the regional challenges
- 5) Capacity Building and learning from our European partners
- 6) Employability and graduates' career counselling
- 7) Problem-solving and conflict management
- 8) New strategies for marketing the higher education
- 9) Special Education and disability
- 10) Entrepreneurship
- 11) Vocational education and training
- 12) linkages with industry and private sector main stakeholders

Activities

PAUC has been involved in various European projects (*Some examples*):

- 1) Tempus / Tunning Middle East and North Africa (T-MEDA)
- 2) World Bank / Upgrading physiotherapy program
- 3) ENPI – European Union / Netkite (Cross Border Network to foster knowledge – intensive Incubation and Technology Transfer).
- 4) EU support to TVET sector in the Palestinian Territories (GIZ as implementing agency)
- 5) Exchange of students through ERASMUS+ KA1: International students and staff credit mobility
- 6) UK Department for International Development (DFID) support to upgrade the IT program and curriculum through the PMDP (Palestinian Market Development Program)

Results

We are so proud that PAUC is being more powerfully engaged and achieved the following:

- 1) Participation in society transformation and innovation of higher education in our country.
- 2) **Internationally** Oriented, transfer of knowledge from partner EU countries, for example Electronic Town hall Meeting (ETM technology for the first time in Palestine).
- 3) **CBL** Community Based Learning approach, starting a business incubator
- 4) **Entrepreneurship**: mobility of 8 Palestinian entrepreneurs to three EU incubators (France, Italy, and Cyprus)
- 5) More emphasis on research
- 6) Working in team and in network with our partners (members in steering and dissemination committees of the EU funded projects.
- 7) Inspiring out student/faculty to reach their full potential, exchange programs to EU universities.
