<ul style="list-style-type: none"> - Modernizing and internationalizing the curriculum of the University is one of the main objective of the project, - Transfer of good practices to the university - Reinforcing teachers and staff capacities 	
Other relevant information (if applicable):	
<p>The University des Frères Mentouri Constantine1 is one of the most important institution of high education in Algeria. It was built in 70s by the great Oscar Neumeier. It plays a key role through its higher education and research mission.</p> <p>It imposes itself as a large university with its six faculties and its two national institutes of nutrition and Of Veterinary Sciences. In addition, it has a Careers' Center, an Entrepreneurship House, a digital campus of The Academic Agency of the Francophonie, a National audiovisual Center, and a multimedia room devoted to teaching at distance etc...</p> <p>It trains more than 40000 Students whose the framing is insured! By 1500 teachers.</p> <p>Research is carried out 67 in laboratories and 03 research units.</p> <p>Since the application of the LMD system in 2004, the university des Frères Mentouri Constantine1 has started to develop the Professionalization of its trainings. So, it created an office for connection with the companies in order to get closer to the socio-economic sector.</p> <p>Many training offers have been conceived in collaboration with companies that also intervene in the practical teachings. Internships are organized for students, in the framework of their final projects of the end of their studies, or free internships which the objective is immersion in the industrial environment.</p>
